

Lyceum

What We Do

We provide services, technology, and support to enhance the administration and quality of your critical employee-related programs.

Technology

Lyceum is a technology and services company based in suburban, Washington, D.C. We achieved market validation in 2004 as the winning bidder of a multi-million dollar contract to replace the personnel order and payroll system of the U.S. Public Health Service. From these roots, Lyceum advanced its technology to eliminate the time-consuming tasks of administering your employee related programs.

Our Administrative Cost Control (ACC) solution integrates all your employee related services into one secure system, automates your manual processes, and even communicates with management and staff. The results are fewer burdens, more-effective management, and continuous administrative cost control.

Support

We support your efforts with:

1. IT Solutions

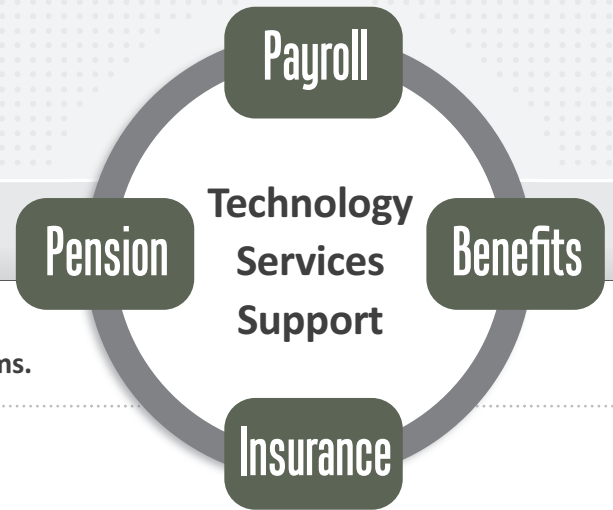

We are the IT experts behind your payroll and HR departments.

2. A Single Point of Contact

You are assigned a dedicated manager for coordination of all technology and services.

3. Dedicated Experts

We have experts in each service discipline to ensure your programs achieve maximum effectiveness.

Lyceum ACC

Services

Put Lyceum's 35+ years of experience in business services to work for your HR-related programs. Combining the benefits of our innovative cost control technology and our service-level expertise, you'll save without sacrificing quality. Dedicated experts in payroll, benefits, insurance, pension and HR/audit will tailor programs geared specifically for your business.

How You'll Benefit

- Eliminate administrative headaches
- Enhance program effectiveness
- Achieve greater productivity
- Save money on existing services
- Realize continuous cost control

**Lyceum can cut your hidden administrative costs by 33%-50%.
Let us show you how.**

Control your costs. Eliminate your burdens.
